Help

Additional Homeless Populations

- Only adults should be included in the counts for additional homeless populations.
- As with the All Homeless Populations section, the PIT Count should be completed using unduplicated counts or statistically reliable estimates of homeless persons in sheltered and unsheltered locations on a single night during the last ten days of January 2022. HUD requires that PIT counts be conducted in compliance with HUD counting standards and related methodology guidance, as described in the Point-in-Time Count Methodology Guide and the 2022 HIC and PIT Data Collection Notice .

- CoCs that are considering performing their required PIT count outside of the last 10 days of January must request a PIT count date exception from HUD. No HUD permission or exception is required for CoCs to conduct supplemental PIT counts
- Persons with the disabling conditions identified above must also meet the qualifications identified in the term for "disability" (e.g., "is expected to be long-continuing or indefinite duration").
- HUD is requiring that data reported on survivors of domestic violence should be limited to reporting on those who are currently experiencing homelessness because they are fleeing domestic violence, dating violence, sexual assault, or stalking, as opposed to reporting on survivors who have ever experienced these circumstances.
